AMENDMENT

ASSISTANT COMMISSIONER FOR PATENTS  
WASHINGTON, D.C. 20231

SIR:

In response to the Official Action dated July 05, 2000, Applicants respectfully request reconsideration of the above-identified application in view of the following amendments and remarks.

REMARKS

Claims 1-9 remain active in the application.

The present invention relates to a method for decreasing the amount of body weight normally gained by an animal after eating, by feeding it an effective amount of an antibody that binds to the enzyme lipase.

Claims 1-9 are rejected under 35 U.S.C. 103(a) over Cook et al. in view of Leclercq et al.

Cook et al. discloses an animal feed containing antibodies which are described simply as "those which can alter physiological processes that adversely affect growth and feed efficiency." (column 3, lines 5-7). Cook et al. did not disclose antibodies that bind to lipase,
